

National Conference on Recent Developments in Nanoscience & Nanotechnology

29th – 31st January 2019

NCRDNN 2019

About NCRDNN

NCRDNN 2019 aims to cover different emerging topics of Nanoscience and Nanotechnology. Significant developments have taken place during the last few years in this field and many eminent speakers will deliver invited lectures on different recent topics. Young research scholars will also present their work through both poster and oral presentations.

Conference shall focus (but not limited to) on the following themes:-

- Carbon nanostructures & its application
- Graphene & its derivatives
- Semiconductor Nanostructures and Devices
- Amorphous and Organic semiconductor
- Photovoltaics
- Catalytic applications
- Semiconductor for energy applications
- Simulation and modelling
- Emerging Novel Materials and Processes
- Characterization Techniques
- Computational Nanotechnology
- Wide Bandgap Semiconductors (Nitrides, Carbides and Oxides)
- Semiconductor Devices (Optoelectronics, Sensors, MEMS)
- Nanomaterials in biological applications

Call for paper

Submit one page abstract related with the theme of the conference within the last date of submission via email to: junanocon@gmail.com

for more details visit: www.ncrdnn.com

Some selected high-quality research works will be published in

Emergent Materials

**Bulletin of
Chemical and
Pharma Research**

Important Dates

Submission of abstract: Jan 5, 2019

Intimation of acceptance: Jan 5, 2019

Registration: Jan 6 -15, 2019

Registration Fees:

Students/Research Scholar

Academia & Industry: INR 1000
